John Paul L. Burato

WEBSITE DEVELOPER

I'm A website developer based in the province of Rizal, Philippines – specializing on the LAMP stack and currently learning the MERN stack.

EXPERIENCE

JUL 2019 – PRESENT

Progressive Medical Corporation

Website Developer – Developed various websites and web-based systems with the **LAMP** stack. From UI/UX drafting, project file system designing, Database design up to configuring Apache servers on deployment. Some notable technologies, frameworks and applications used are: REST APIs, **Object Oriented Programming**, DRY, Woocommerce API, **MVCL** design, SEO Fundamentals, Wordpress and **Opencart**.

MAY 2019 – JUL 2019

Bigtime Empire Corporation

Website Developer – Managed **nginx** webservers and maintained various **wordpress** created websites using **Elementor** and **DIVI**.

NOV 2018 – MAR 2019

Dibztech Inc.

Intern Developer – Collaborated with fellow interns using **GIT** and helped further the development of an internal web-based system written in **Laravel** and **Vue.js**.

JUN 2017 – PRESENT

Self Employed

Visual Novel Developer – Developed and published **VNs** on **itch.io** from scratch using **Ren'Py**, a visual novel engine written and runs on **Python** for fun.

TECH STACK

Technologies, Languages, Software, Design and Paradigms I have knowledge of.
Marked * indicates items that are daily used and I am comfortable working with.

PHP *	Node.js	Ren'PY	MongoDB	MySQL *
Sass	CSS *	HTML	JS Es6	Twig
Vue.js	Opencart	Jquery *	Wordpress	WP REST
OOP *	MVC L	GIT	DRY	UI UX
Apache *	Nginx	FTP	APIs	Postman

Aside from working full time in the corporate world, I've become a freelance developer and served clients such as Canvasspoint, Bigtime Empire, Technomed and undergraduate Masteral Professors. Also proficient on various media design software, I've also catered minor graphic designing and video editing for undergraduate college students.
